# Census of the British White Herds at December 31st, 1952

## PREFACE

For the sake of printing economy, and in accordance with a decision taken at the last Annual General Meeting, the present edition of the Herd Book is produced without the usual cover. Every copy has, however, been perforated so that it can be enclosed, if required, in a loose-leaf binder, a supply of which—in black cloth-covered boards and capable of holding up to a dozen annual editions of the Herd Book—has been prepared for the convenience of Members. These may be obtained, price 5s. each, on application to the Secretary.

Although the total number of British White cattle in the country remains more or less at the same level as in recent years, a disturbing feature, so far as the future of the breed is concerned, is the small number of bulls registered in the present Herd Book. While no responsible breeder would advocate the retention in the herd of any but the best possible males, it should be pointed out that, if the present decline in bull-breeding is allowed to continue, it can only result in a dangerous amount of in-breeding.

Members are asked to pay particular attention to this vitally important point during the current year.

A. K. VENNER,

Secretary.

### THE ALBION HERD

*Owners*—Mr. & Mrs. G. J. Gordon  
2 Heifers in calf.
